

July 13, 2006

A Message from the Planning Team:

Thank you to the City of Port Orford for your involvement and participation in the planning process to determine if the City should update the Comprehensive Plan and zoning for the southern part of the City.

At this time, the vision and recommendations with analysis and information from the workshops entitled, *City of Port Orford, Looking to the Future, June 30, 2006*, has been provided to the City of Port Orford, and the information is available on this Web Site. A limited number of copies of the document available for checkout, and a display with the concept illustrations from the plan are at the Port Orford Public Library.

The Planning Commission has scheduled a meeting to accept public input from the citizens concerning the Recommendations that are included in Chapter 7 of the Plan. In September, the Planning Commission will determine their recommendations to the City Council concerning the projects to undertake in Phase II of the planning effort.

The public input meeting is scheduled as follows:

Monday, August 7, 2006 – 6: 00 p.m.

Council Chambers, Port Orford City Hall

We hope you will let the Planning Commission know your thoughts concerning the Plan's Recommendations at the meeting. You may also submit your thoughts to the Planning Commission in writing prior to the meeting. Written comments can be dropped off at the City Hall, or presented to the Planning Commission at the meeting. Written comments and a record of the public input meeting will be provided to the Port Orford City Council along with the Planning Commission recommendations.

It has been a pleasure to work with you.
